

### **Contractor Questions and Answers**

1. Reference Question 1, Contractor Questions and Answers, dated 22 April 2004. The question was answered incorrectly. I have restated the question below with the correct answer.

**Question.** In Tab 3-1 RESUME OF OFFEROR'S ENVIRONMENTAL EXPERIENCE, Section L, Page 306 of Amendment 7 of the solicitation, specifies: "Provide a general overview of the proposed prime contractor's experience: (1) in providing the environmental services described in Section C, Statement of Work"

However, in Section M, Technical Evaluation Factors, Factor 3A - Experience, Page 345 of Amendment 7 of the solicitation, specifies: Responses to this factor will be evaluated to determine the offerors' experience performing related projects that include services as described in Section C, Paragraph 3.0 and subsections. The type, size, complexity, geographical location, experience with regulatory offices. The SSEB will evaluate roles, responsibilities, actual work performed **by** offeror or team member, and whether experience pertains to current teaming arrangements and organizational structure proposed for this contract.

Please clarify if information provided in Tab 3-1: Resume of Offeror's Environmental Experience, is to include only prime contractor experience, or experience of the Team (prime and key subcontractors).

**Answer:** ~~Section L has been changed in Amendment 0009 to be consistent with Section M, Technical Evaluation Factors, Factor 3A.~~ Section L, Contents of Technical Proposal, Tab 3-1 RESUME OF OFFEROR'S ENVIRONMENTAL EXPERIENCE is to include only the prime contractors experience.
